

Movie Location Quiz

FORWARD

Thanks so much for your support! Every little bit helps me in my quest to make more videos exploring filmmaking and film history. As you can probably tell from some of my videos, I love traveling to the filming locations of my favorite movies. This is a 10-question quiz to see if you can recognize some of the most iconic movie locations as they appear on Google Street View. I've actually visited five of the locations in this quiz and I highly recommend checking them out if you ever find yourself nearby. There's something so fascinating about standing in a place that has been given a strong fictional meaning and it's amazing to see that many of these locations have remained mostly unchanged since being involved in productions that took place decades ago. In the

Part Set, Part Location = Slocation

answer section, you can find links to these locations on Google Street View so you can see where they are located and explore a bit if you'd like.

Make sure to grab a piece of paper to keep track of your answers. Let's get started!
