What an absolutely crazy set of events have transpired. Our group has been captured... again!

First by the tentacle beast, and now by the new Queen of Spiders. They've been webbed and even molested by their vile captor!

Mmmm!
Yesss! Such nice boobies. They need to be bigger! Give me more!!

And yet, the ladies don't seem to mind, as the queen has left them better off than when they first entered her sticky domain.

<giggle>
My boobies got bigger again. I just love it when they get bigger.

By that, we mean that their figures have been enhanced again - by the insidious venom of the queen's pet spiders and her guardians.

Careful!
My nipples
are really sensitive,
you know!
Fuckers!

And the latest victim to be injected was Pixie. Now it's time to see what their transmorphic poison will do to our busty and voluptuous android!

Oh,
I can't
wait to see how
the venom of my
pets affects
you.

A character with dark, spiky horns and a dark, patterned outfit is shown in a green-lit environment. The character has a dark, patterned top with a large, light-colored, textured area on the chest. The background features green lights and a stone-like wall. A speech bubble is positioned in the upper right corner of the image.

How enormous will you grow, I wonder? Hmmm?

A close-up, cinematic shot of a character with a dark, textured, scale-like appearance. The character has large, curved horns on their head and multiple pairs of eyes arranged vertically on their face. They have dark, glossy lips and are wearing a dark, intricately patterned garment that covers their chest and shoulders. The background is dimly lit with green ambient lighting and blurred rectangular light fixtures. A speech bubble is positioned to the right of the character's face.

Given
how obscenely
voluptuous and stacked
you already
are.

Mmmm,
I am getting
all worked up just
thinking about
it.

It should kick in any moment now...

However, Pixie's giant tits do not suddenly explode into monumentally mammoth mountains, despite having several doses injected into them.

Why isn't
it working?

Ha!
I don't
know. Maybe I'm
immune, since
I am an
android.

No,
robots are
not immune to
the effects of
it.

Their venom is mostly natural, but there is a technological component and it contains magic as well.

Nothing and noone should be immune to the effects of it.

A character with large, dark, textured horns and a dark, patterned outfit with a light-colored, ribbed bodice. The character has dark, heavy-lidded eyes and dark lips. The background is a dimly lit room with green lights and spider webs.

Maybe
you just
need a higher
dose than
most!

No, wait, I think I feel something. Ohhh!

QUIVER!

QUIVER!

You
can't fool
me. My
pets--

**WAVE
FORWARD!**

I...
fuck...
really feel...
Mmmm...
something
now.

RUMBLE!

RUMBLE!

МмммФффАяппН!

It appears that Pixie is not faking and she really is having some kind of reaction to the spider venom. It just took a little longer for some reason.

Squirt!

Squirt!

But then her top starts to slowly dampen, the wet spots growing larger in mere seconds.

Gush!

Gush!

And soon greenish milk, tainted by the poison, is gushing from her fat, swollen jugs!

Oh my!
Now that is
new, and a **very**
interesting
result.

I need to take a closer look.

A character with dark skin, horns, and a spiderweb-patterned outfit stands over a fallen figure. The scene is dimly lit with green ambient light and spiderwebs. A speech bubble is in the top right.

Which means that I will need these webs out of the way for now.

And this top as well. I want a clear view of those phenomenal tits!

Splurt!

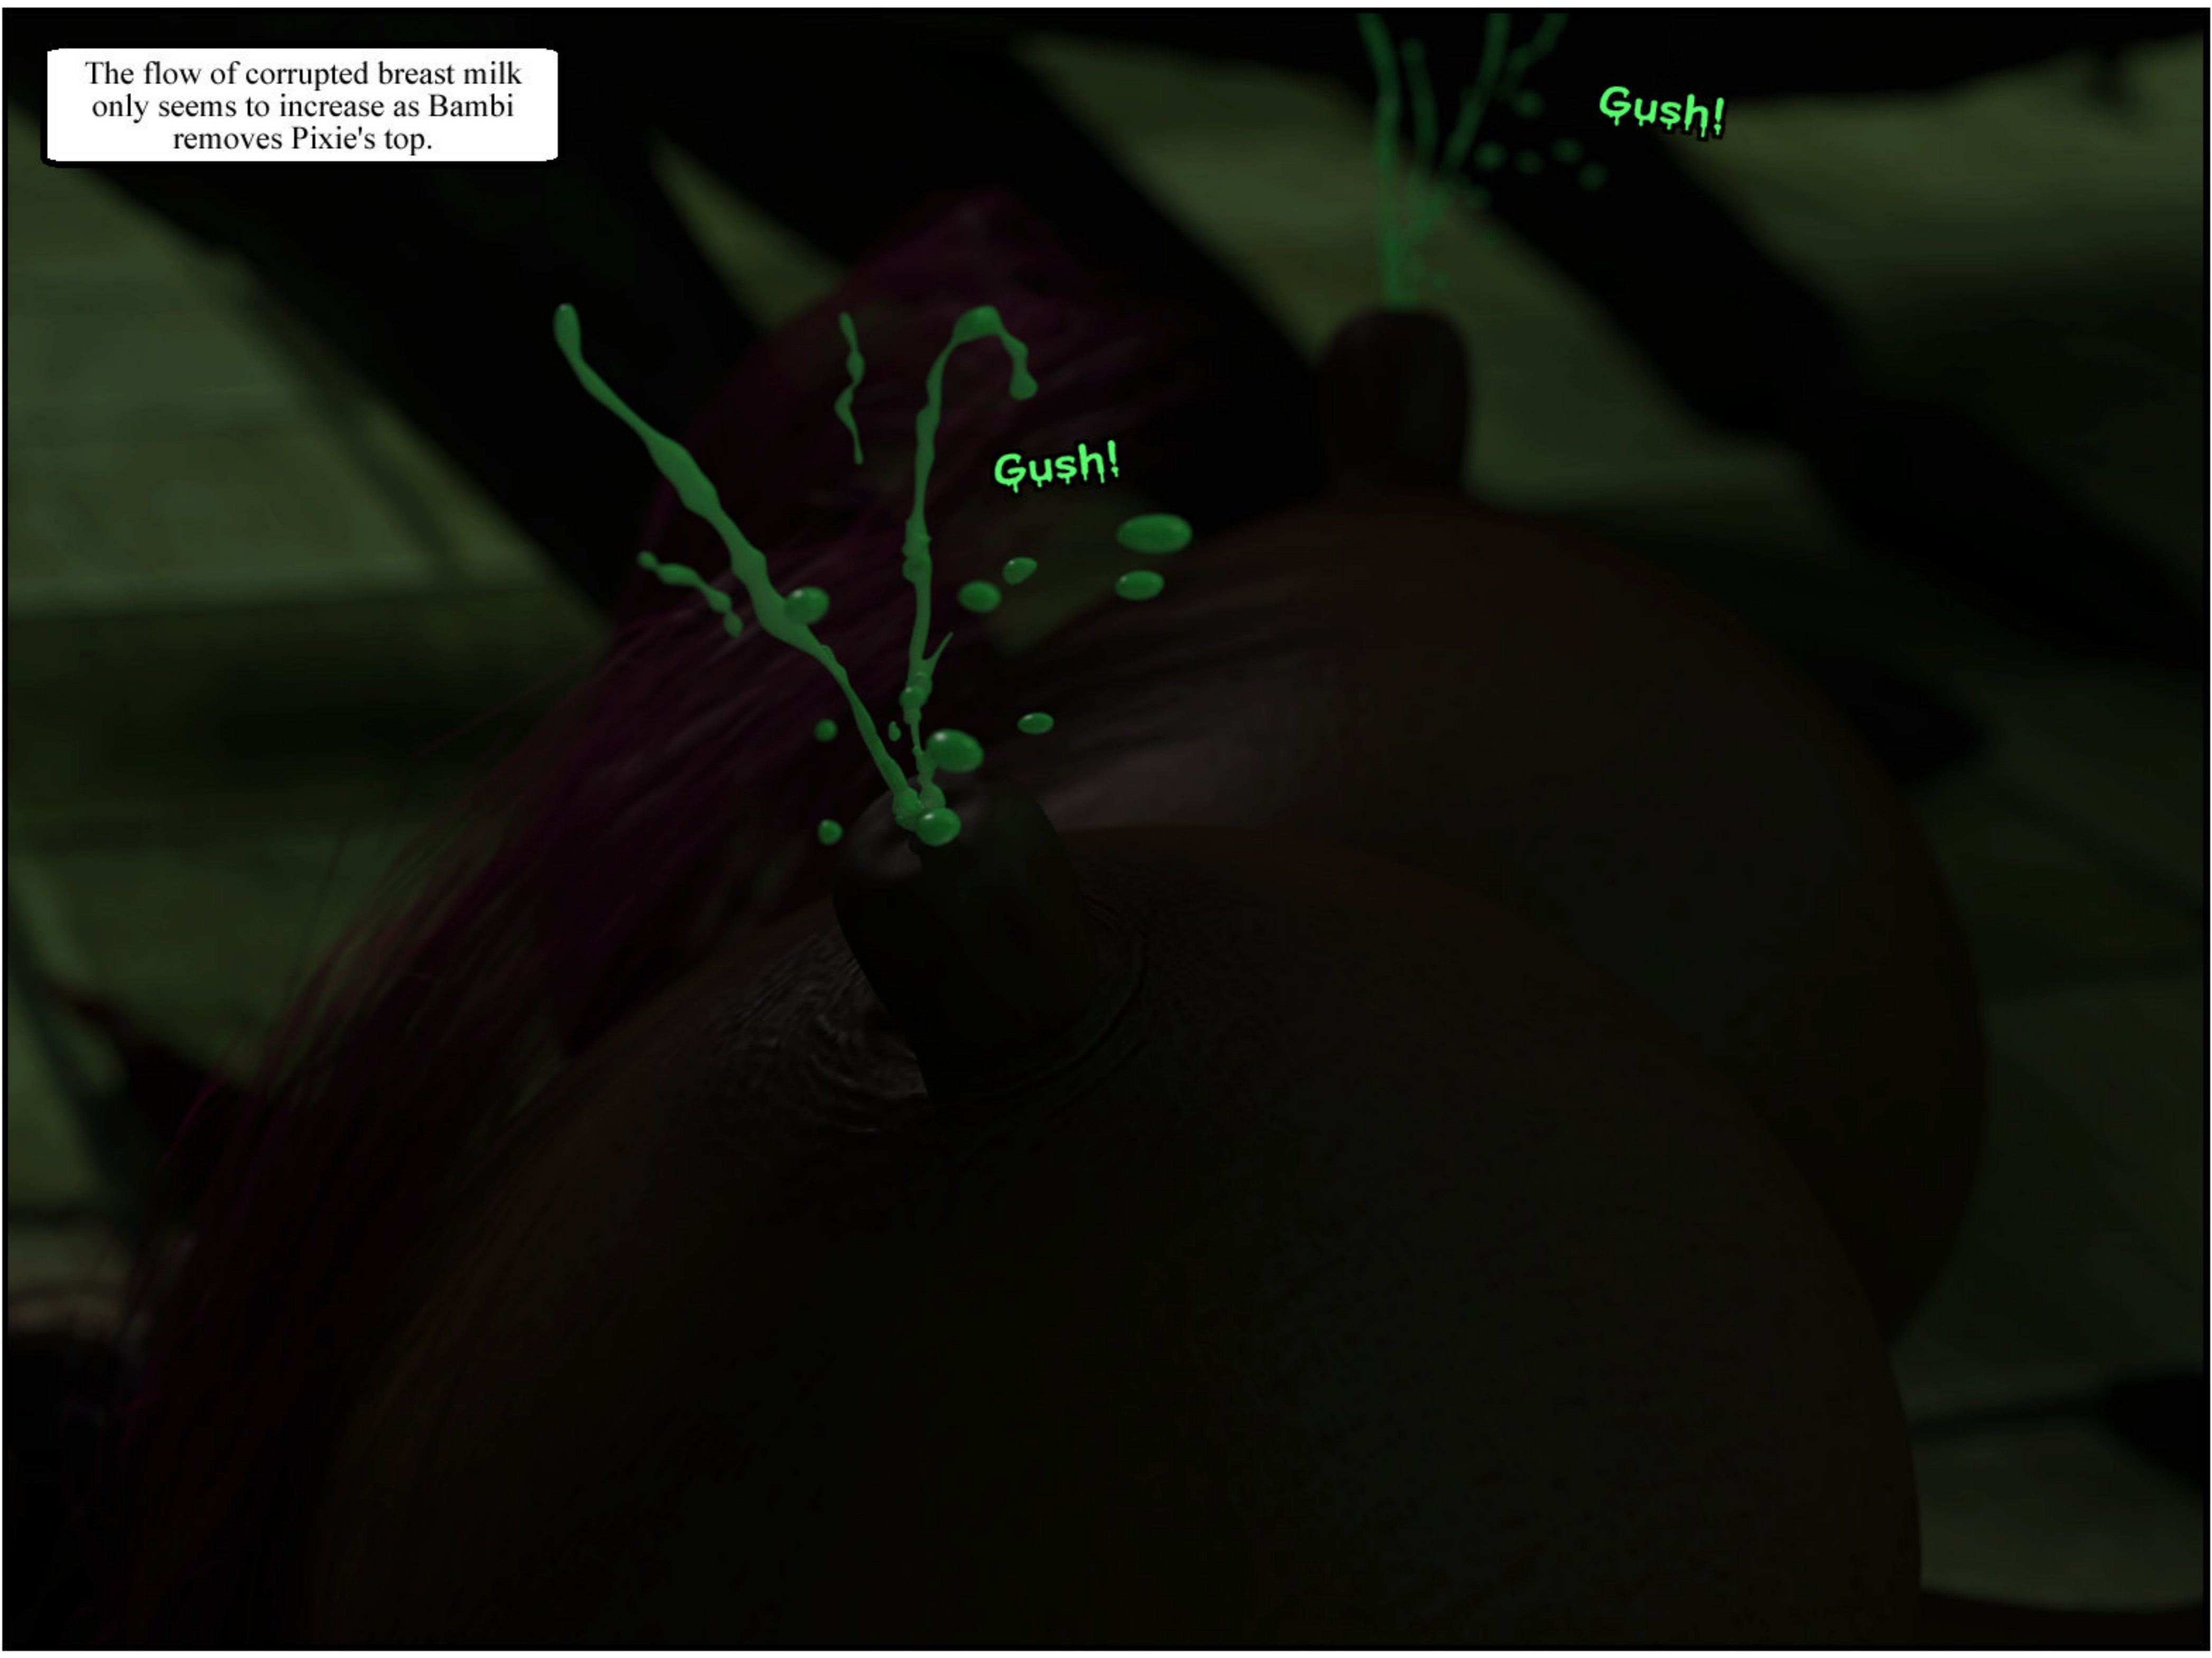

Splurt!

The flow of corrupted breast milk only seems to increase as Bambi removes Pixie's top.

Gush!

Gush!

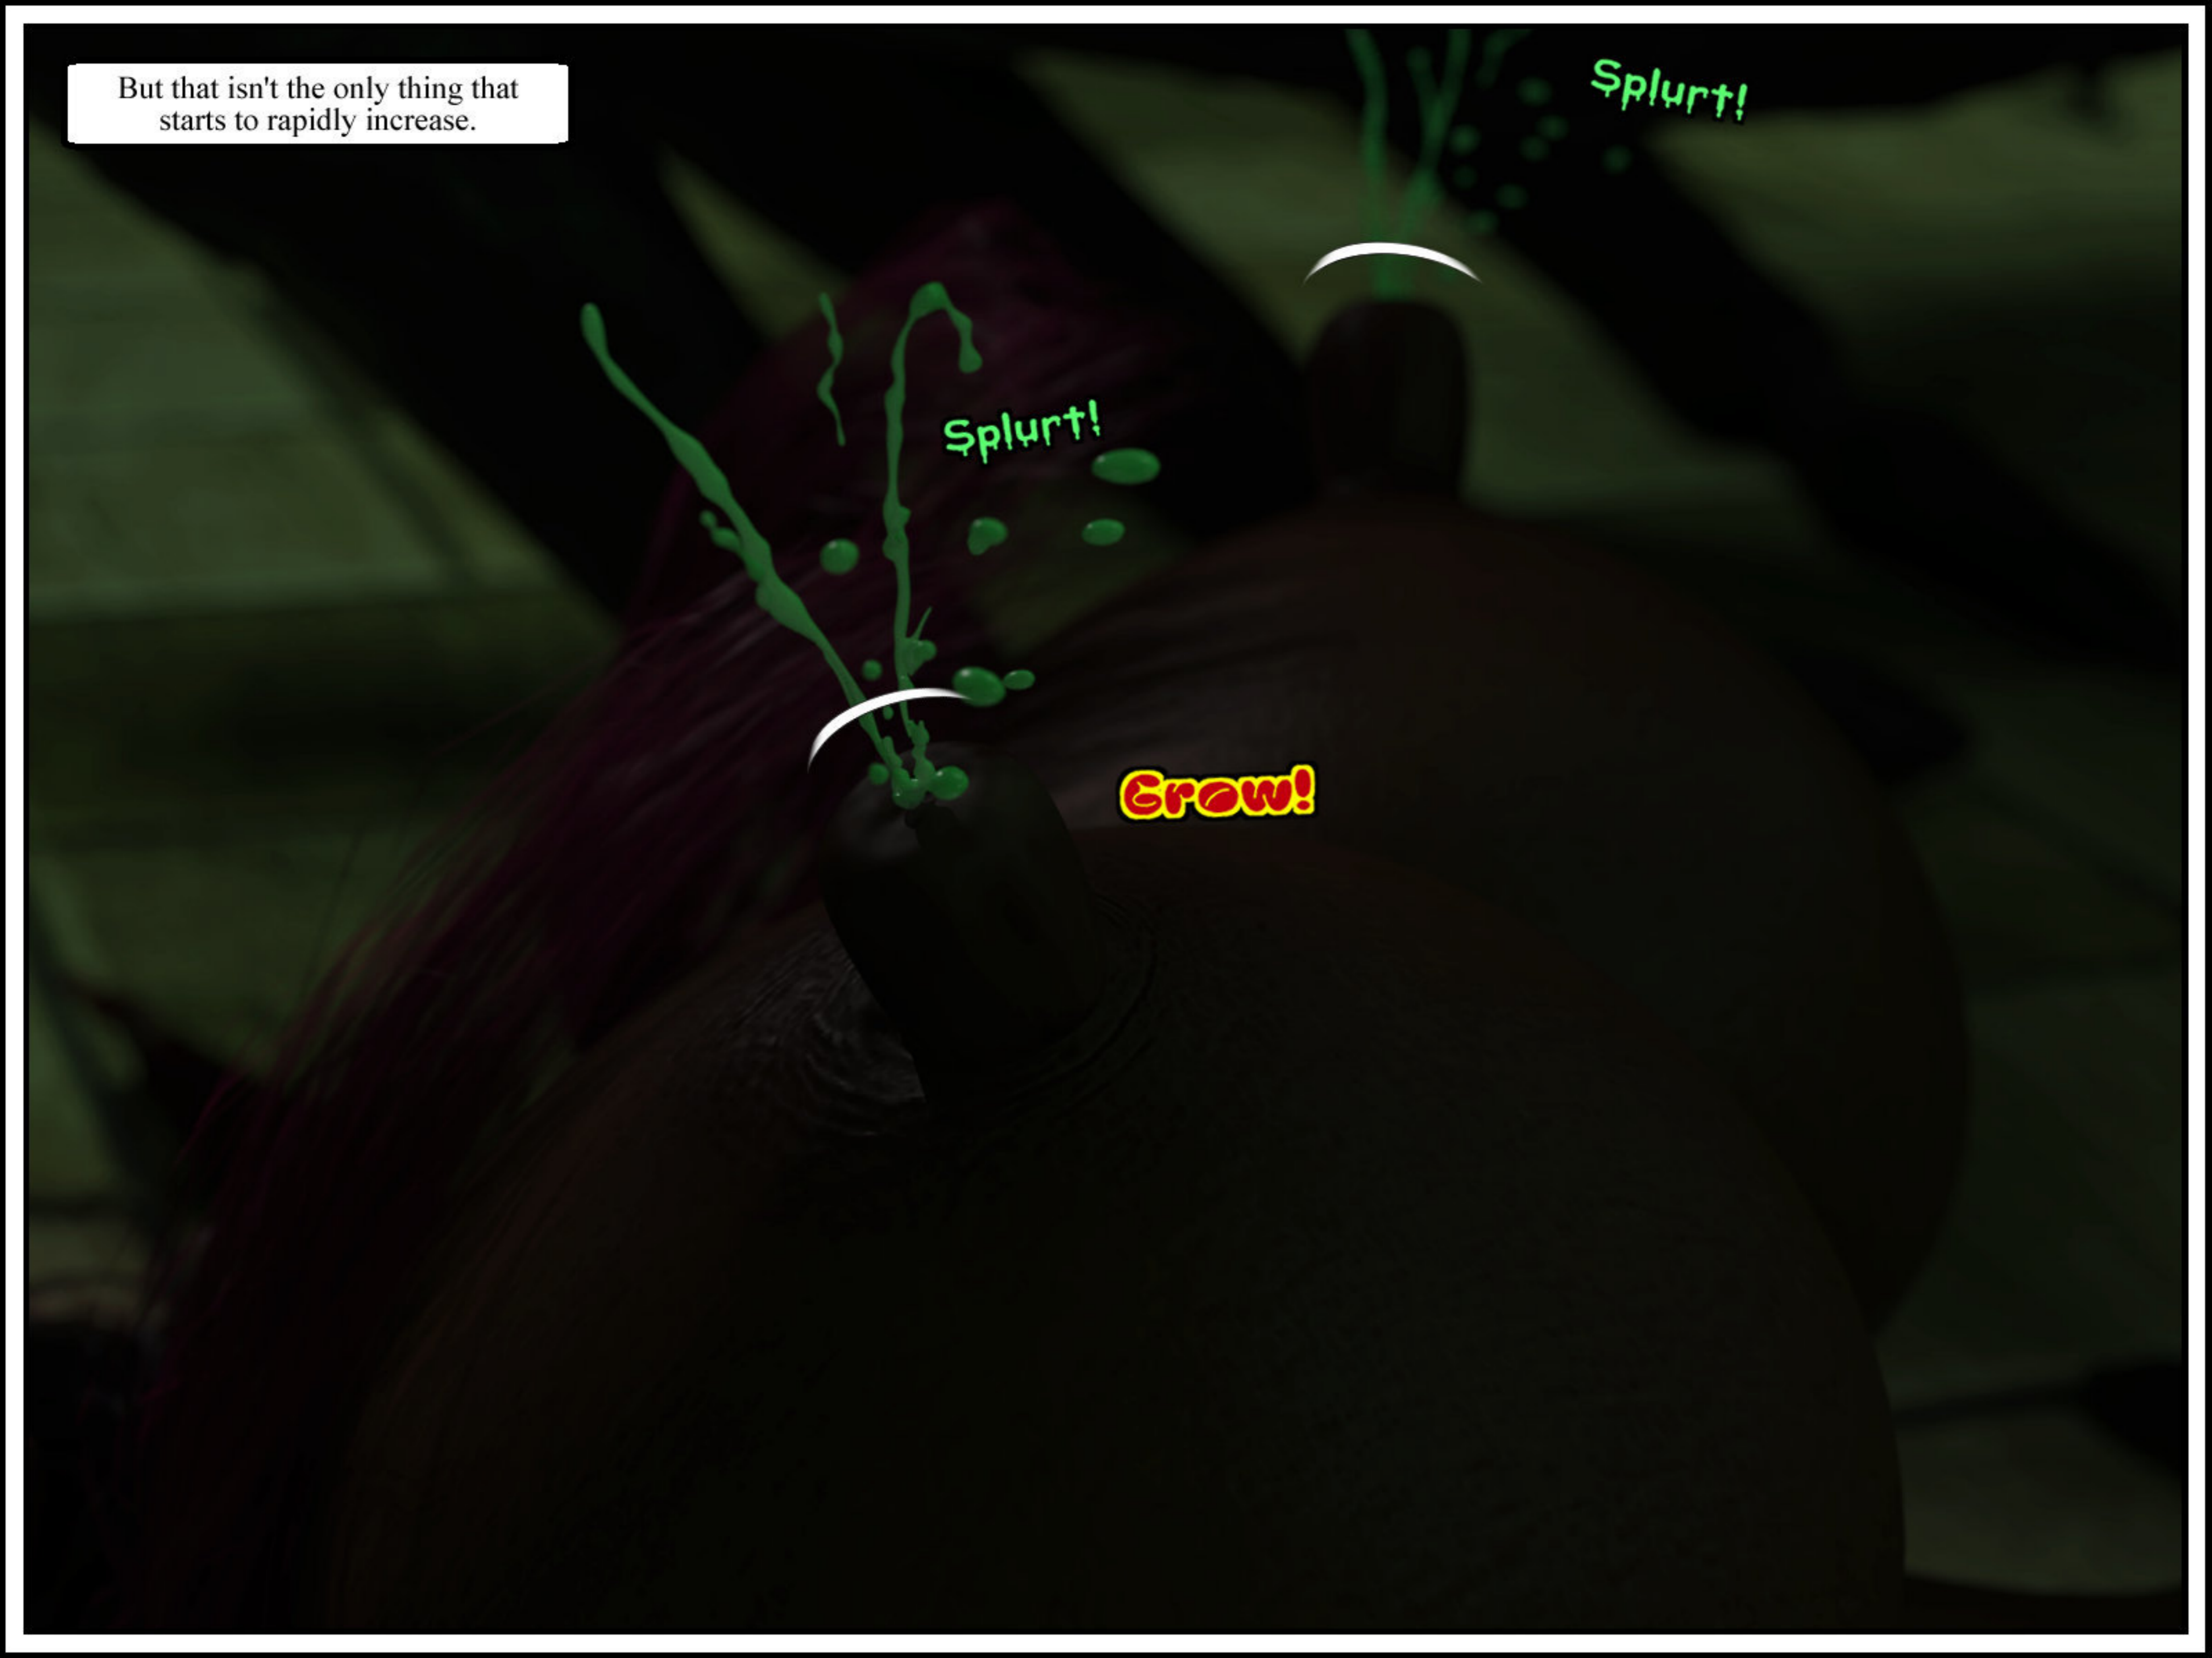

But that isn't the only thing that starts to rapidly increase.

Splurt!

Splurt!

Grow!

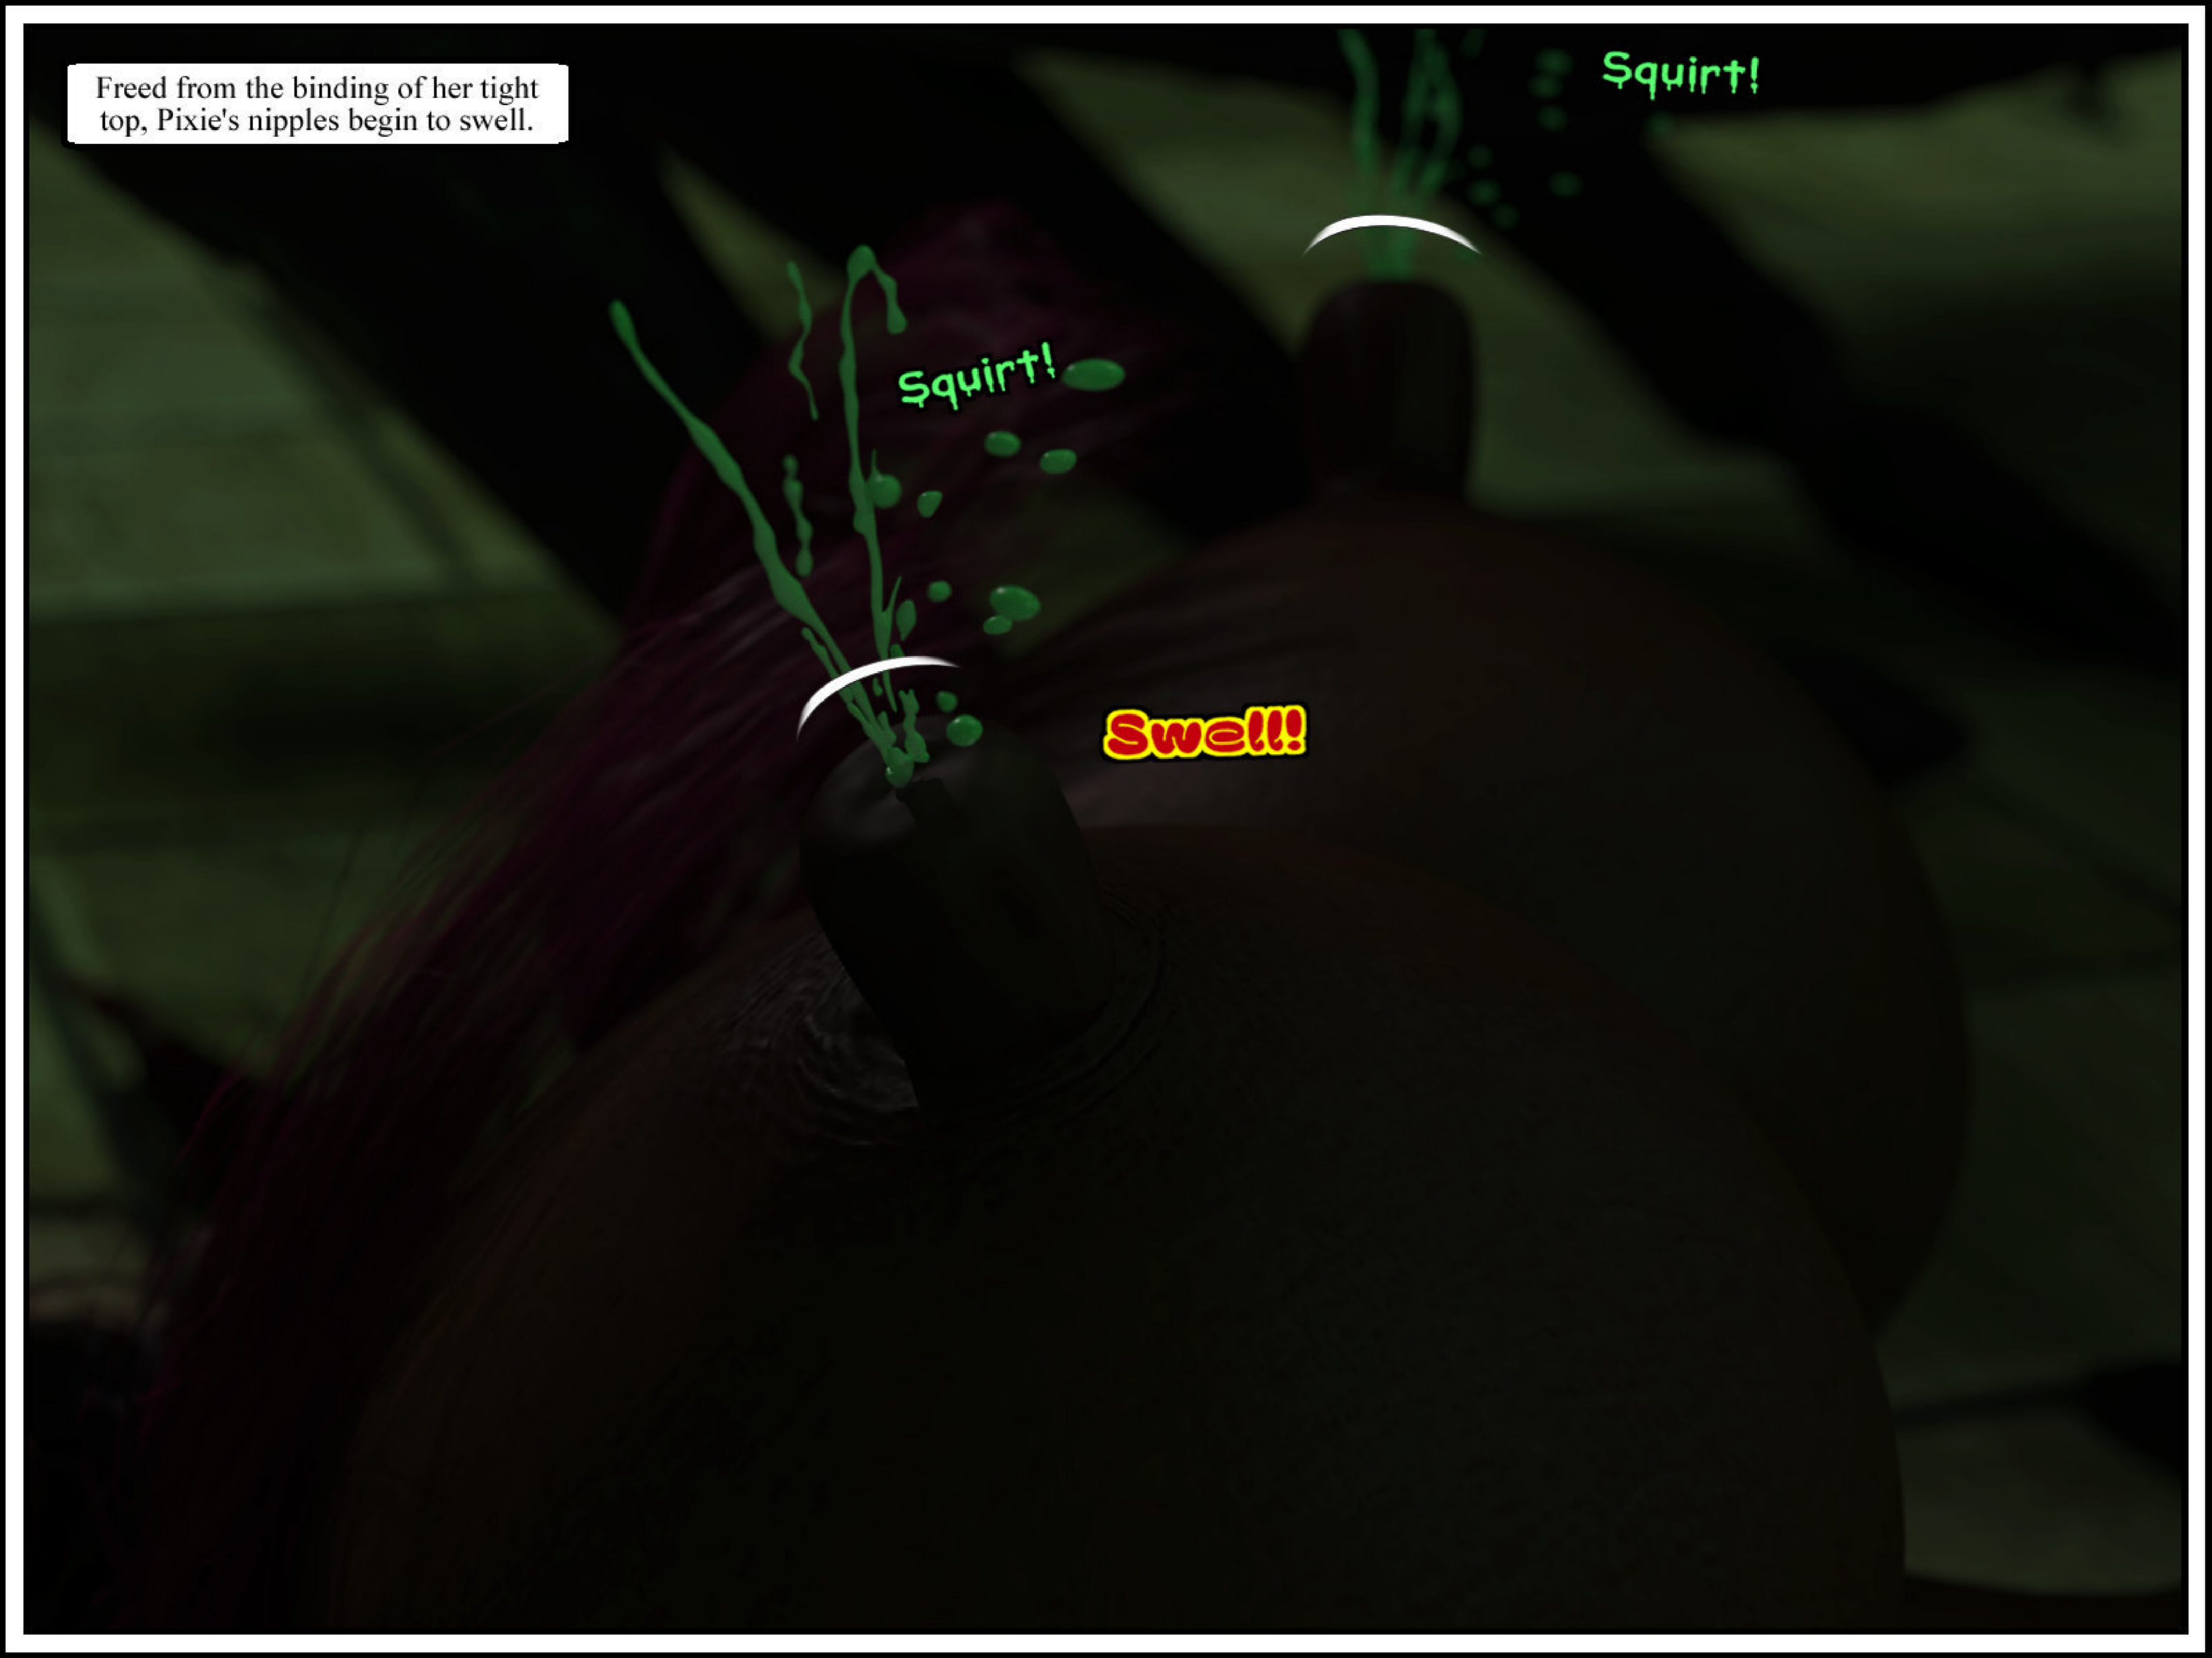

Freed from the binding of her tight top, Pixie's nipples begin to swell.

Squirt!

Squirt!

Swell!!

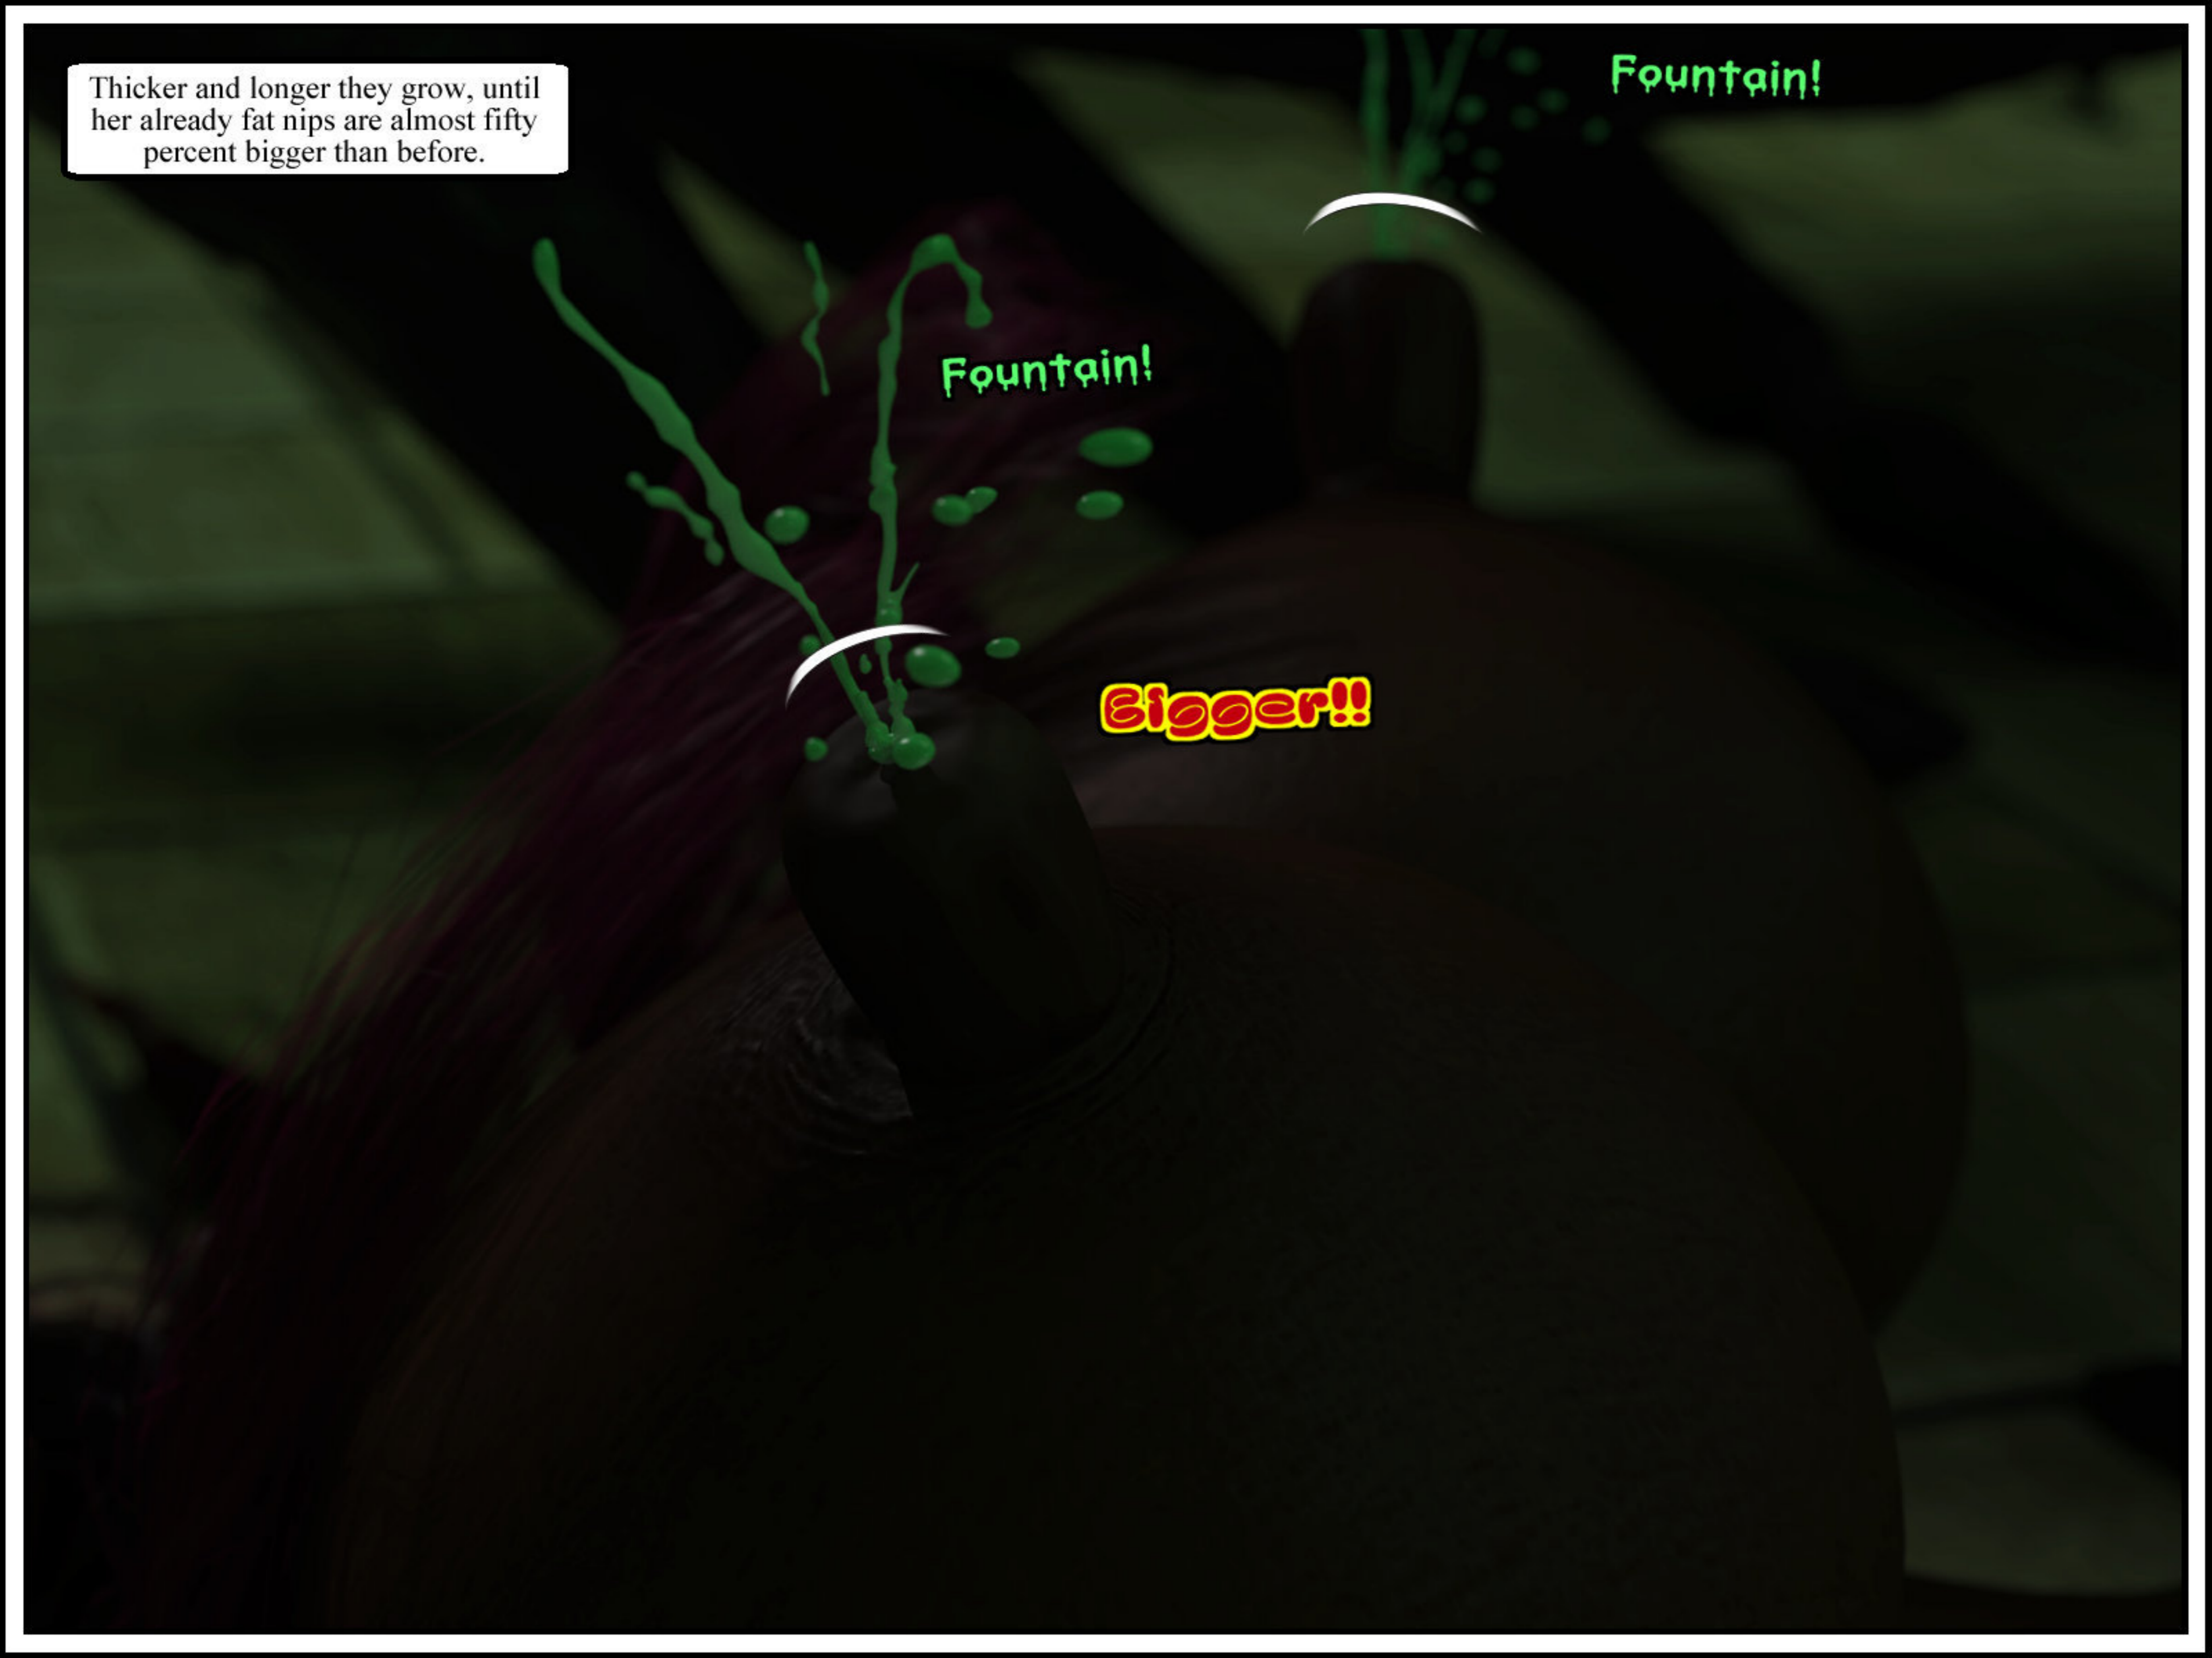

Thicker and longer they grow, until her already fat nips are almost fifty percent bigger than before.

Fountain!

Fountain!

Bigger!!

Now
that is
wickedly delightful! I
think we will try something
different with
you.

Since
it appears
that I won't need my
nails to taste
you.

Suck!

Glom!

It takes Bambi a moment to crouch and bend down to where she can reach, folding her many legs underneath herself.

Slurp!

Slurp!

Slurp!

But she wraps her succulent new lips around Pixie's turgid left nipple and starts sucking for all she is worth.

Oh
my gawd!
You taste amazing!
Now I understand
what happened
to Goldy!

The taste is heavenly: thick and rich.
It is just as good, if not better, than
directly draining the lustful essence
from her lascivious prey.

Does
her milk
taste this good too?
Do all of
you?

In fact, all three of the subjects she
has tasted so far have produced a
much higher quality product than
Bambi is used to.

You know what? It does not matter, because I simply need **more!**

She could easily survive for centuries off of what she has absorbed so far, but why stop there? Why not indulge herself?

With a devilishly playful grin, Bambi reaches down once more to grab hold of Pixie's milk-laden breasts.

Grab!

Grab!

But this time she squeezes her fist-sized and highly sensitive nipples!

Lessen!

Lessen!

Squeeze!

Squeeze!

Slowly tightening her grip until the flow of milk slows and eventually stops all together.

Stop!

Squeeze!

Stop!

Squeeze!

Or it stops coming out of her nipples at least, but the flow doesn't actually cease completely.

Swell!!

No, her hyper-charged, milky jugs keep producing more and more of the tainted liquid.

Grow!

But now it has nowhere to go, which was exactly what Bambi had planned - for the milk to build up inside.

Bulge!

Because she doesn't want just a little more of the creamy beverage, she wants a huge serving of Pixie's nectar!

Expand!!

And it was simply not pouring out of Pixie's bloated rack fast enough for the Queen of Spiders.

Bigger!!

The queen waits until Pixie's tits have swollen to titanic size, almost as big as her own bloated rack.

Mmmm!
Yes, this should be quite the lovely meal!

And she can hear the bounty of
Pixie's bulging bust sloshing around
inside of them.

Slurp!

Bambi wraps her luscious lips around
Pixie's invitingly thick, twitching
nips once more.

Suck!

And starts sucking and slurping out gallons of creamy green milk from the moaning android.

Drain!

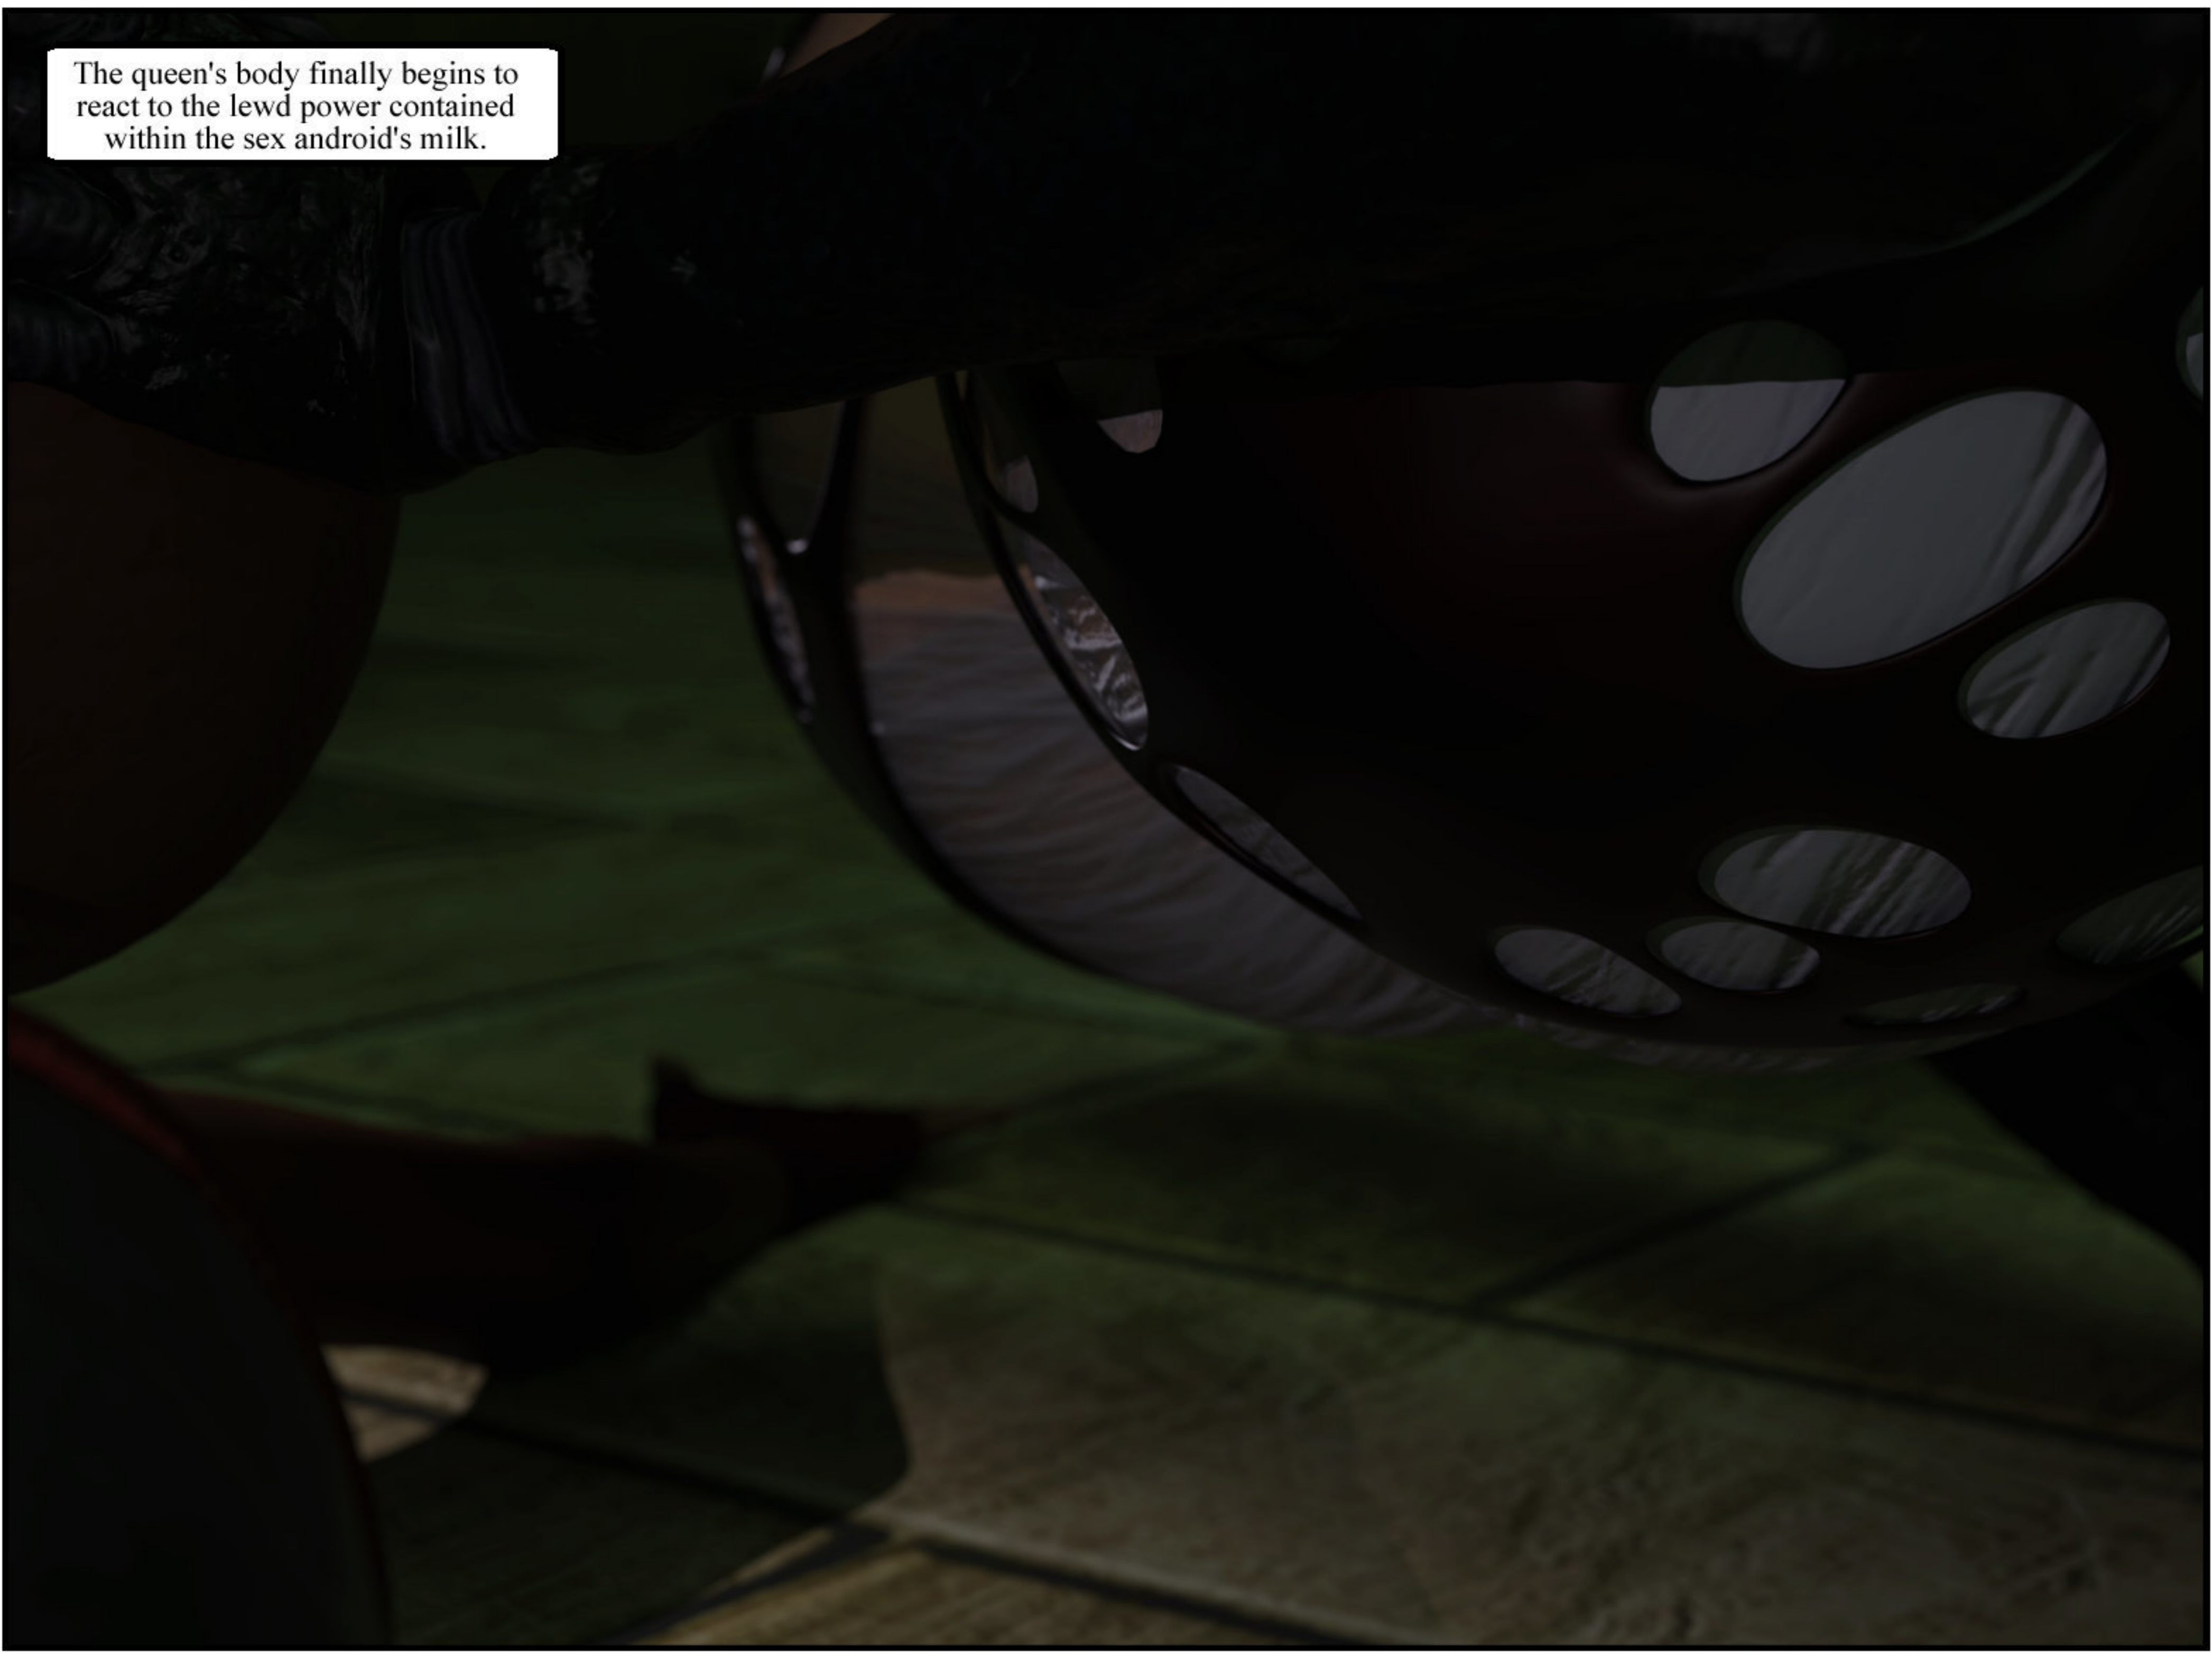

Because the sensation is incredibly stimulating and erotic. One might almost suggest that it could become addictive if done too often.

Absorb!

The queen's body finally begins to react to the lewd power contained within the sex android's milk.

It took a little longer this time, and acts a little slower, because of the different method of consumption.

Paink!

Paink!

But now a heady and seductive tingle begins to run through Bambi's body as it starts to change.

Swell!!

Swell!!

Her own massive bustline sprouts a huge pair of throbbing and pulsing nipples.

Engorge!

Engorge!

That slowly and delectably swell and thicken into a pair of teats the size of a roll of quarters, if not bigger.

Bigger!!

Bigger!!

This does not slake Bambi's thirst for more of the tainted and corruptive nectar at all.

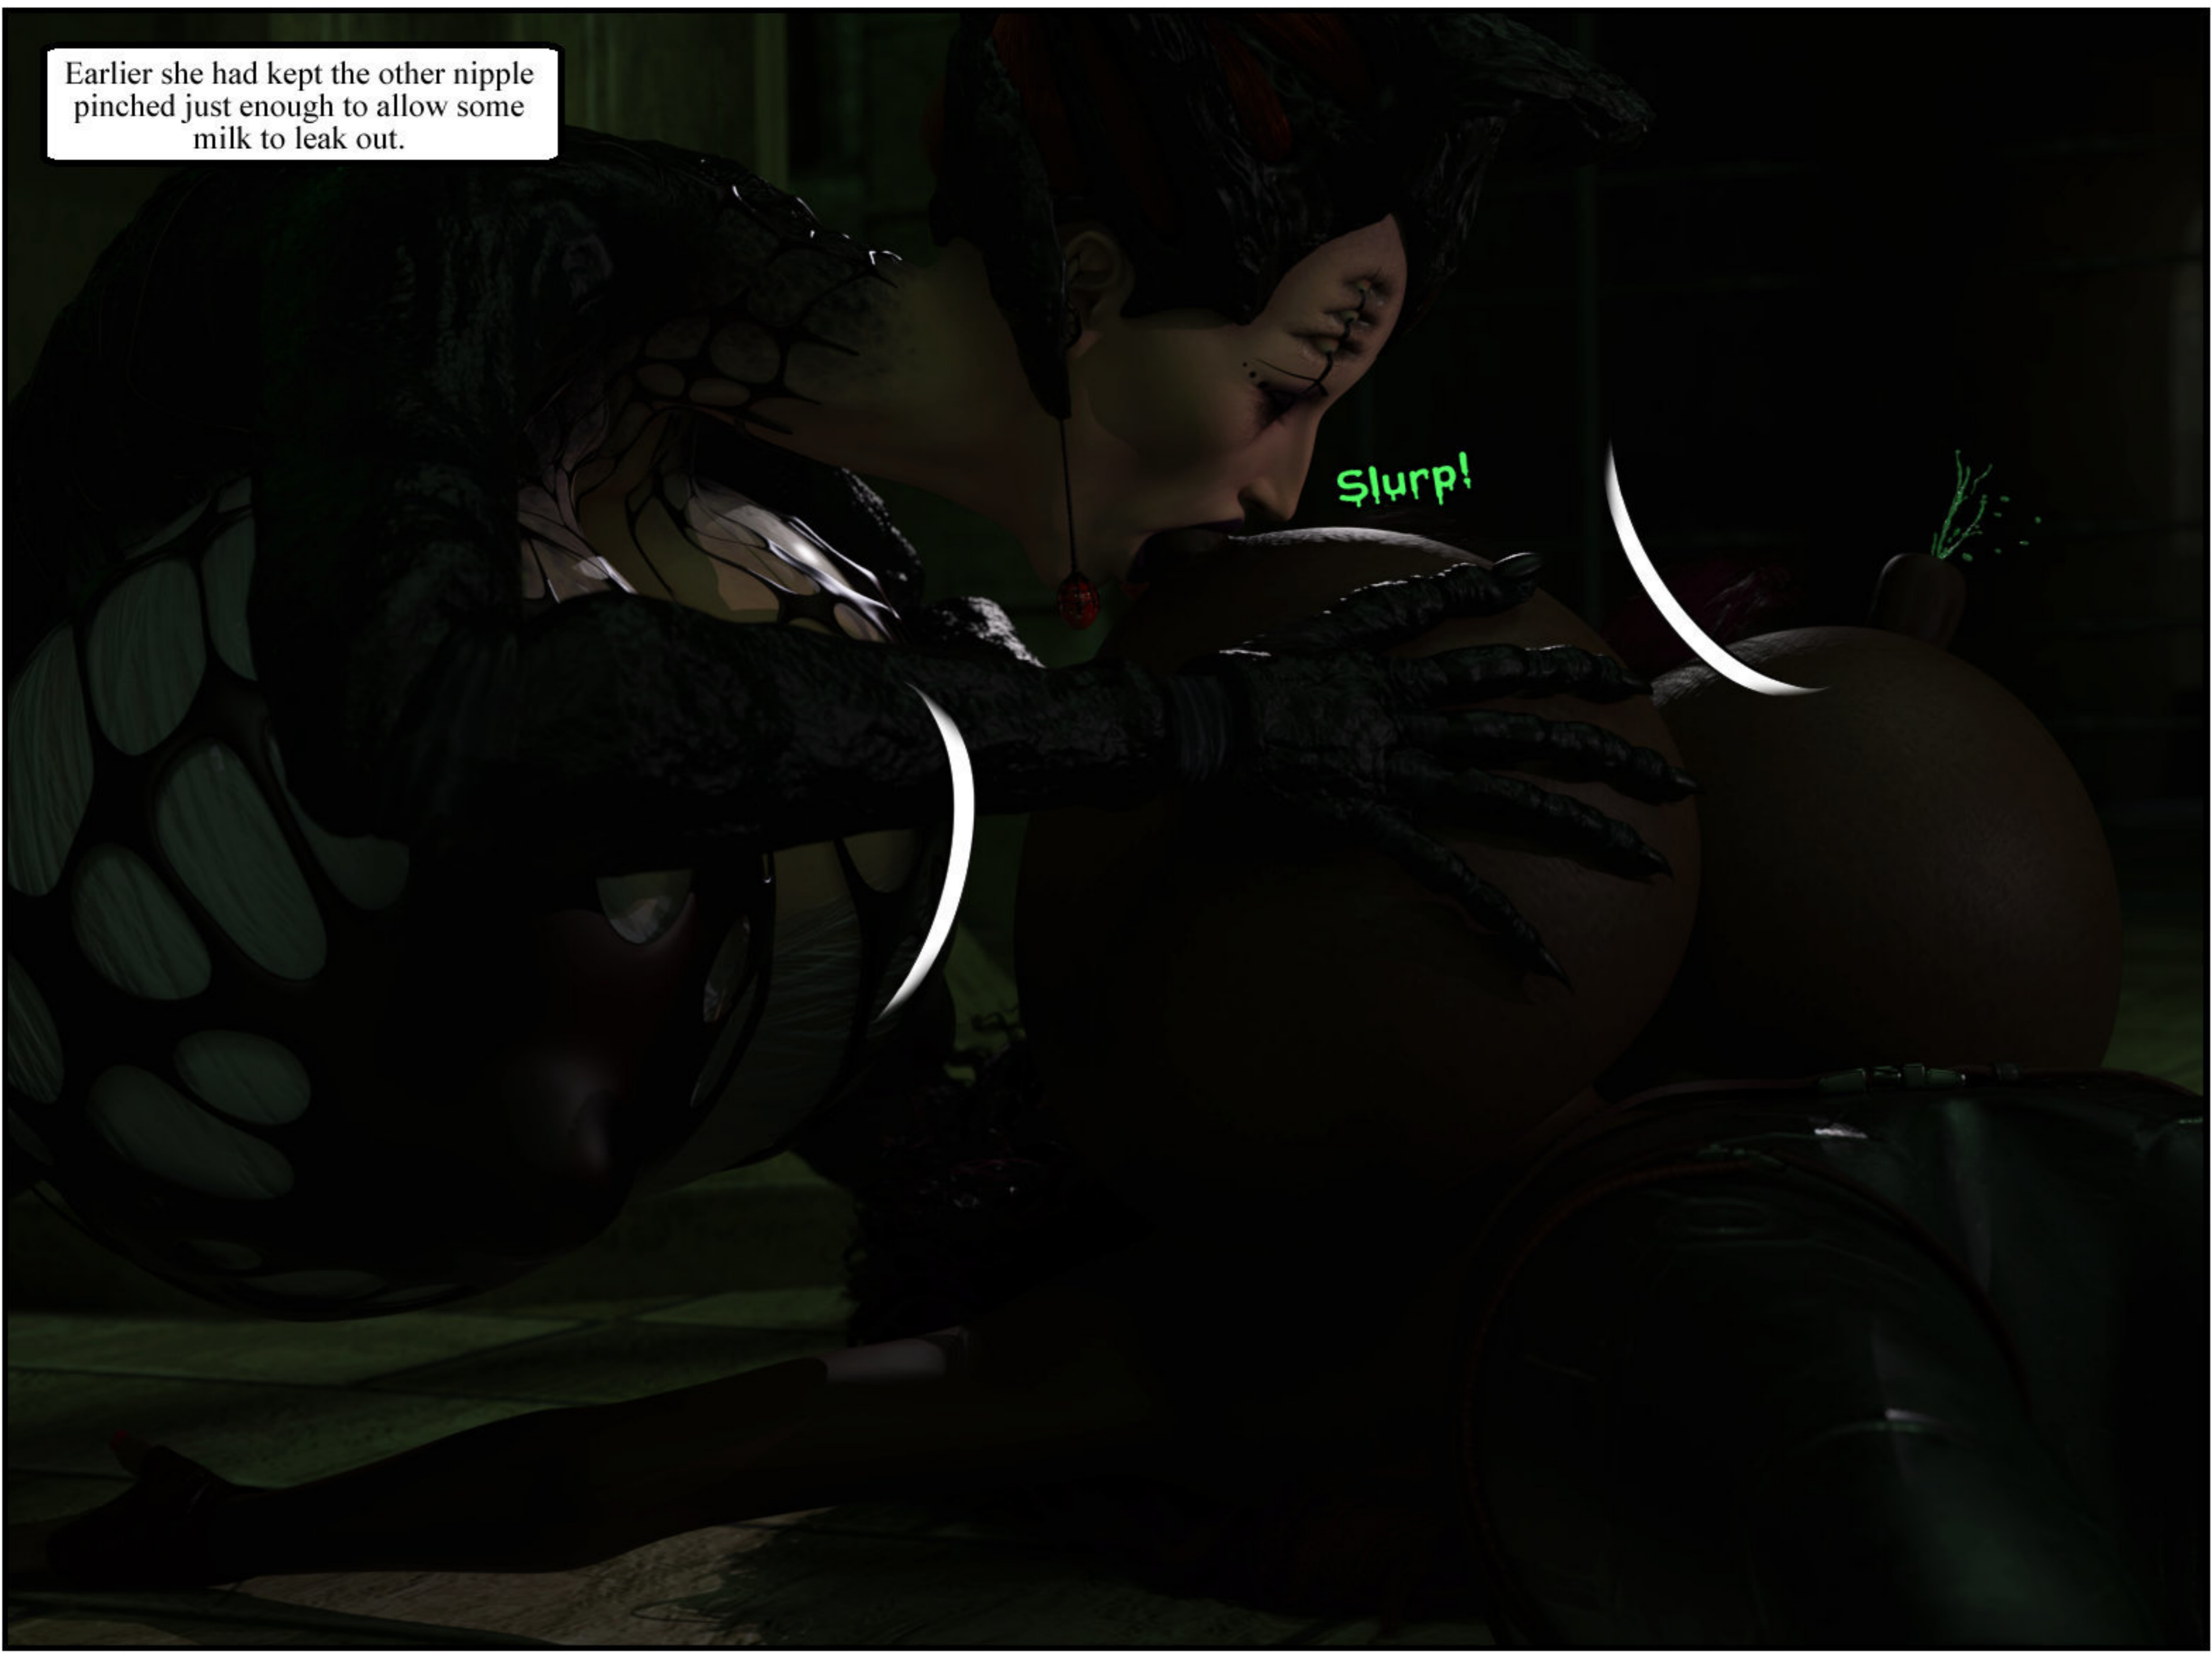

Glom!

Splurt!

Earlier she had kept the other nipple
pinched just enough to allow some
milk to leak out.

Slurp!

But not so much that Pixie's bounty would be diminished, maintaining Pixie's new size without causing pain.

Suck!

And now the queen gorges herself on the inhumanly enormous amount of milk contained within.

Drain!

She drinks her near to dry, but still leaves Pixie with a larger bust that occasionally spurts out a little milk.

Absorb!

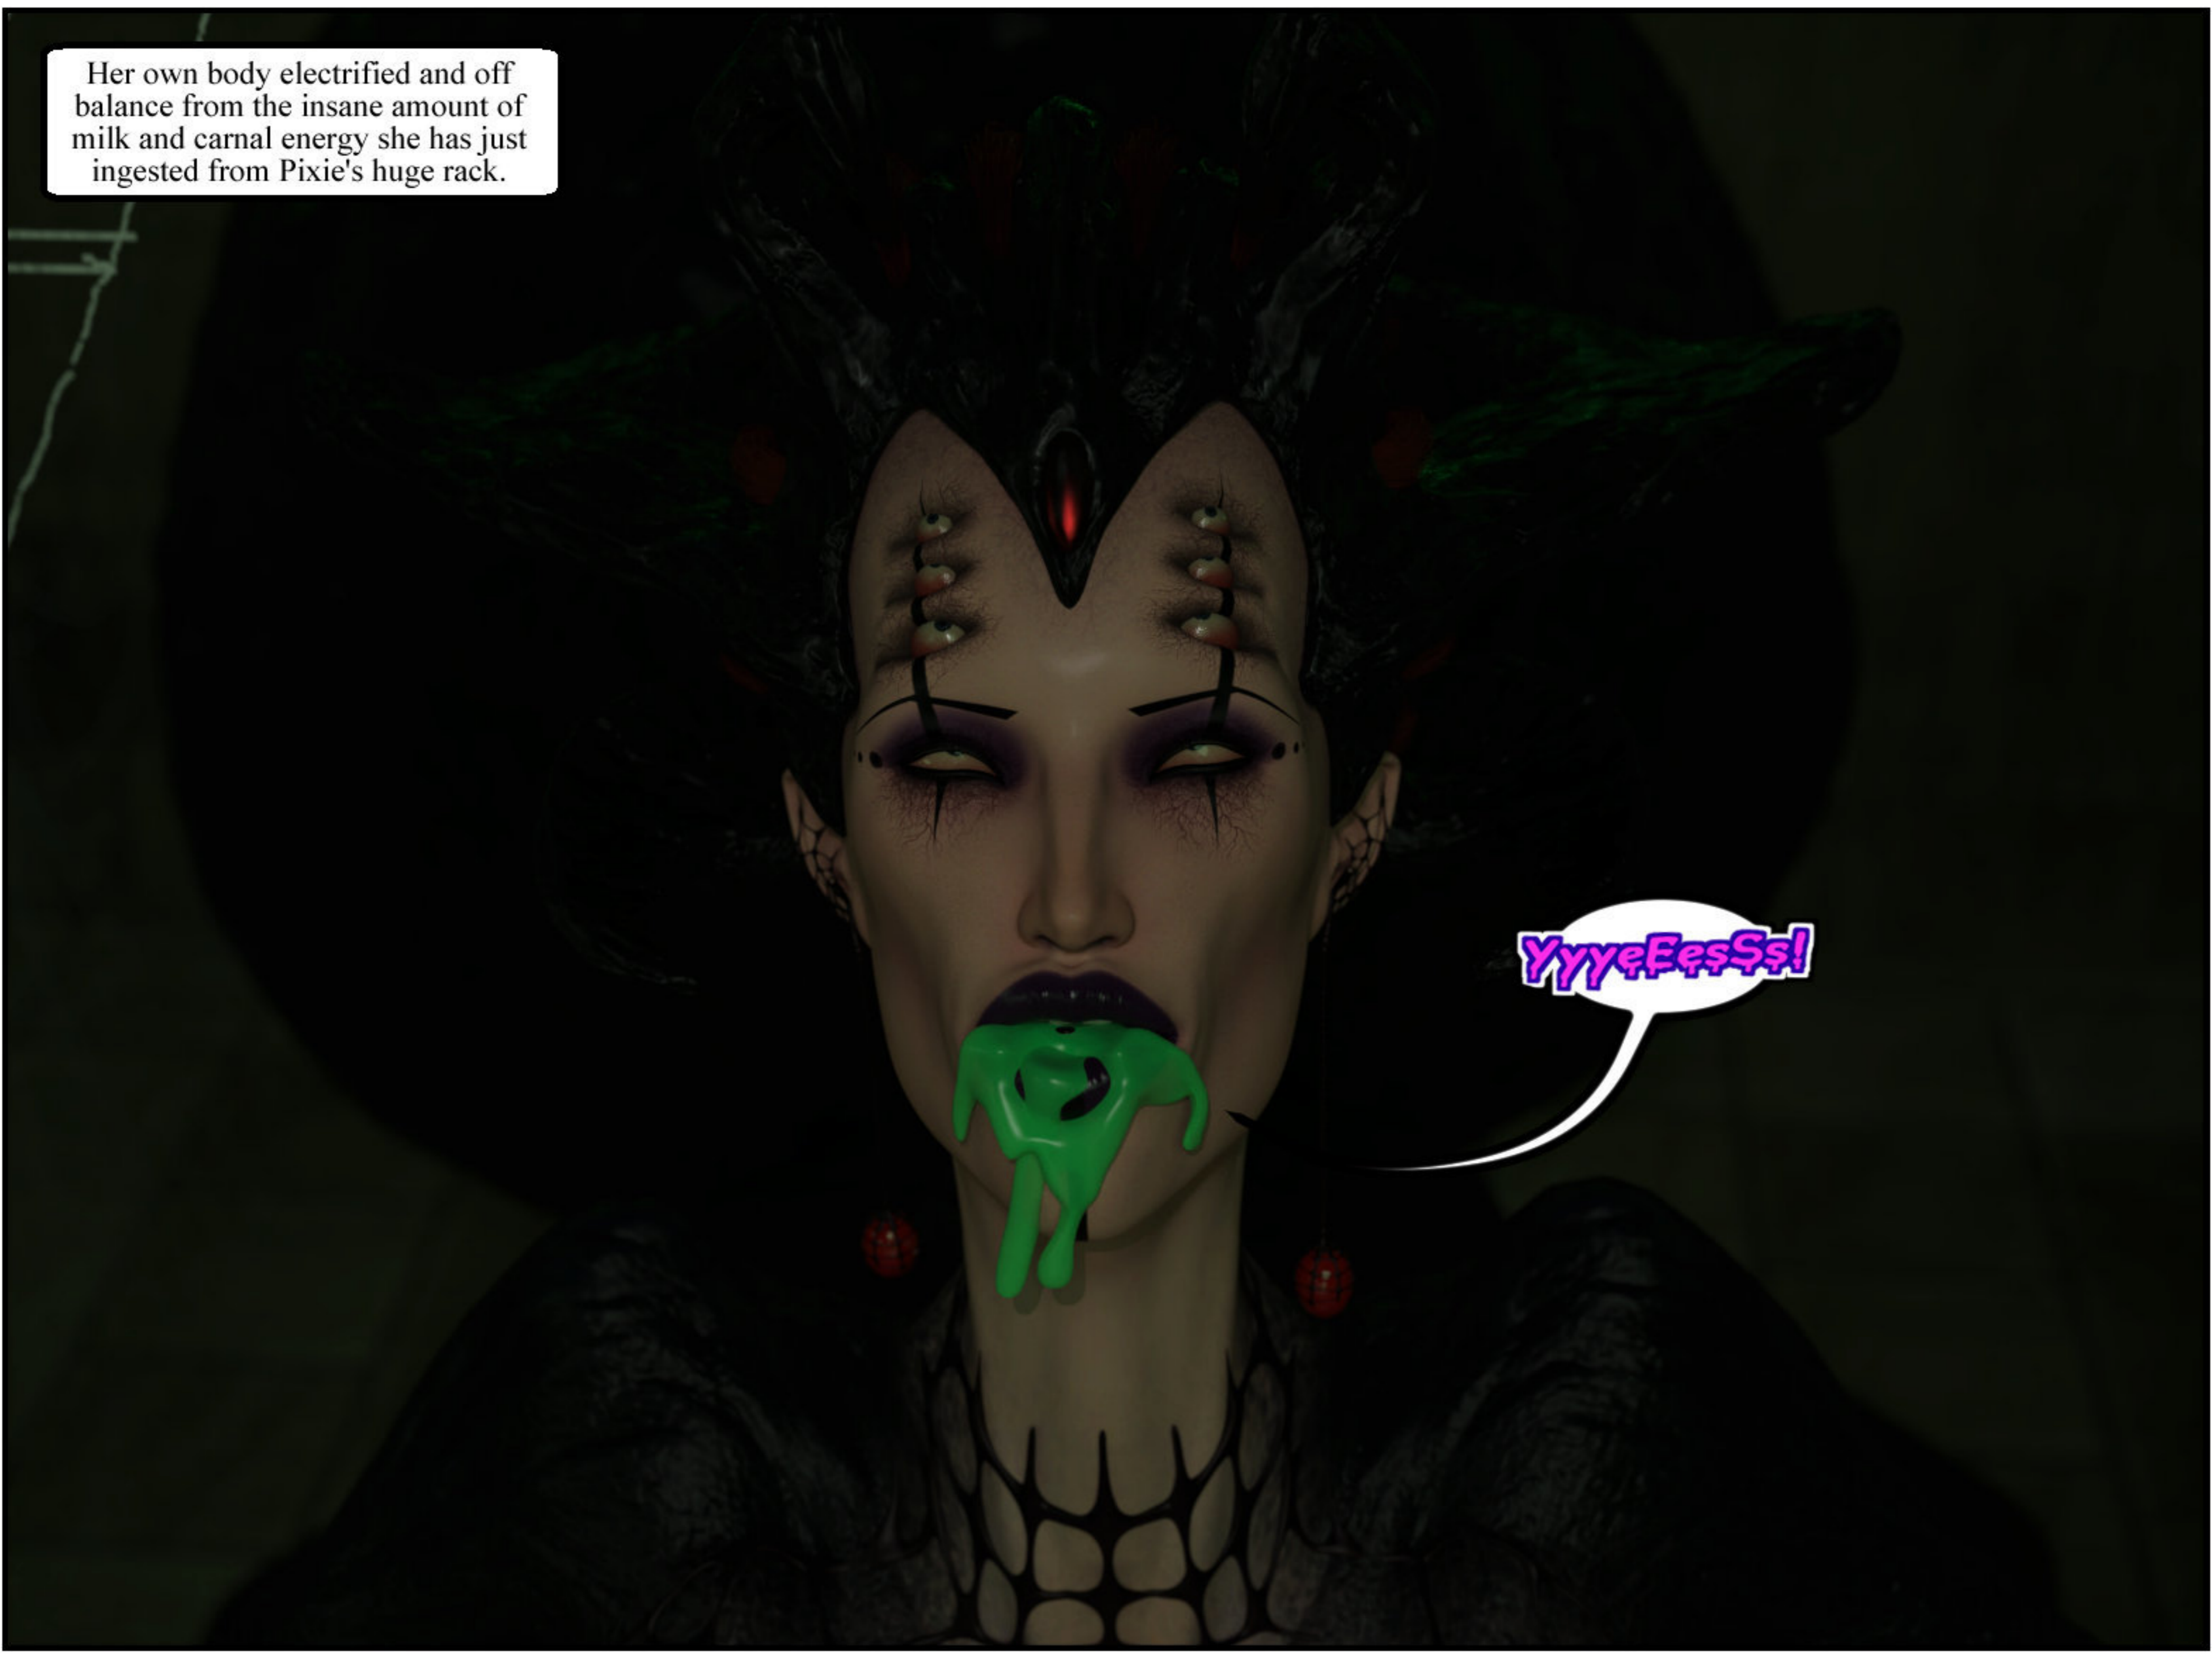

As Pixie explodes in a massive orgasm, the queen stumbles up and back, supporting her swollen form on a nearby pillar.

YyyeEesSs!

Her own body electrified and off balance from the insane amount of milk and carnal energy she has just ingested from Pixie's huge rack.

YyyeEesSs!

The queen falls silent and merely grunts as her augmented figure is rocked with wicked and wanton power, as well as pure pleasure.

Bulge!

RIP!

Her top, formed from her own webs, strains under the onslaught of her new growth spurt.

Fill!

TEAR!

STUFF!

Bambi's breasts rapidly bloat and bulge even bigger, destroying her poor web-based under top.

Bloat!

She shudders from the vile and unvirtuous vitality flowing into her ginormous jugs.

Billow!

Ballooon!

Filling her up and out with the salacious spirit of those from whom she has supped.

Bigger!

Her other top barely manages to contain her now massively mammoth mountains, her nipples having grown again along with her towering titties.

But the obscene energies flowing through Bambi have not abated.

Fuller!

They start to collect in another location within her bulging and ripening body.

Plumper!

Plumping and rounding out her
buttocks into a fat and bloated
bubble booty.

Bubblier!

That thrusts out behind her like a shelf and rests atop her now thick and juicy thighs.

Juicier!

As the growth slowly subsides, the queen recovers herself and pants for several long moments before examining her latest changes.

Fuck yes!
Just look at
these luscious curves,
these giant ginormo jugs,
and this obscenely
curvaceous
hourglass!

I
just knew
this group would
provide me with
incredibly lewd and
lecherous
energy.

She revels in the prurient power coursing through her obscenely enhanced figure and ponders the idea of just going off to fully enjoy it.

And I was more correct than even I could have known. However...

A dark, green-tinted scene. In the center, a spider with glowing red eyes is on a web. To the right, a glowing green bowl sits on a stand. A small lantern is visible in the upper left. The floor is tiled.

But even though she can barely stop fondling her bulging booty or excessively bloated bosom, Bambi pauses to stare with unadulterated hunger at Tanky.

I may be getting a little ahead of myself.

Stay tuned!
Our story will
continue.
