NPC audio.

------Gameplay------

Gameplay

The Quest Journal no longer has word wrapping so some quests might have writing that goes off-screen.

The 20 point event prize is now in the game! Find 20 events and it should unlock in the Rewatch House.

There is now a small introduction to the Quest Journal when Lace first gives it to you in Safen.

A new quest in Piratetown. You need to find and give brochures to guys who might be interested in the volunteering work at the shack.

You can now change your name at the ID machine in Gloomy Forest.

The rocks on Pine Island that you can move now work like the leaves in Beach Cave. You push them into the water by using the action button (space, for example).
