Competitive Fetching talent recruitment.
As a growing sport with massive interest and funding. Competitive fetching teams always look out for new young talents in other sports. Skilled players with aligned interests are recruited from their college's sports teams regularly.

I love playing basketball. Even though I don't have the height for it, I am fast and nimble. I can jump higher, score more, and guard any other player out there. Until I met her.

I can't forget the first time I lost to her, and many times more after that. Taking this bitch down became my life's goal!

Until one day, the bitch just quit on me!

What do you mean, you are no longer playing!?

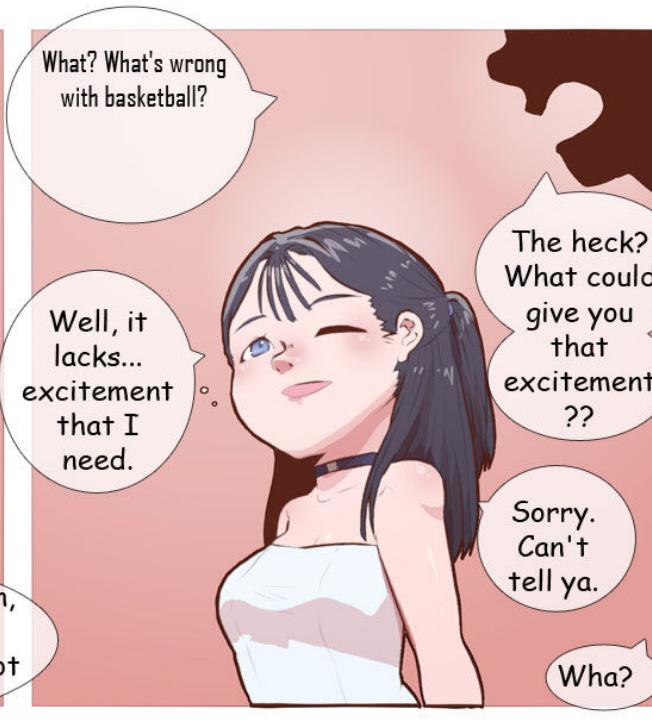

Hey!

I heard that you are even quitting college! WTF is going on, Mari?

Um... yeah...

Well, playing ball was fun, but it's not really that important to me. Well, not anymore.

What? What's wrong with basketball?

Well, it lacks... excitement that I need.

The heck? What could give you that excitement ??

Sorry. Can't tell ya.

Wha?

Hope you enjoy your time after this. You probably will be the MVP now.

Oh, you little-

Fuck you! Coward! Coward. Ran away while I still can't win against her even once.

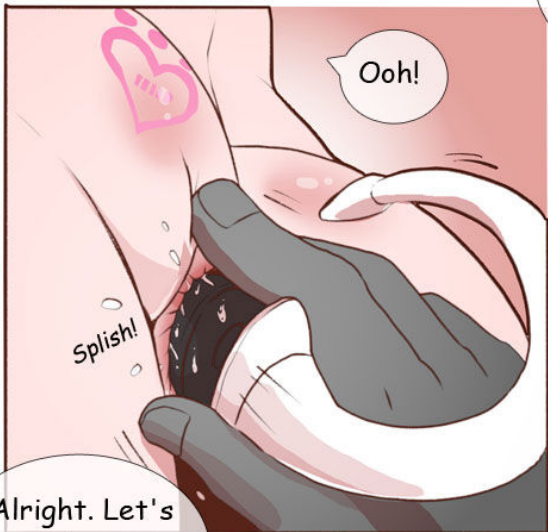

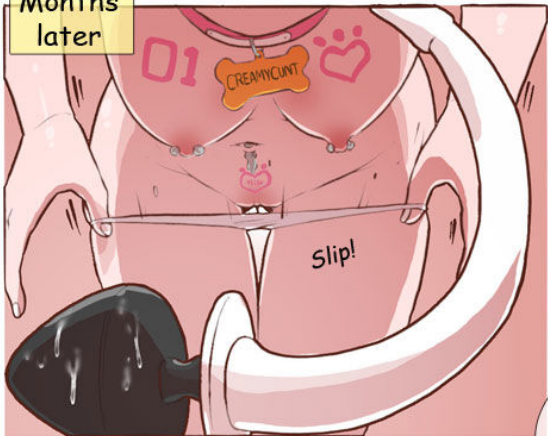

After that, I found out that she got into a new exotic sport. Some weird sexual, fetishized, perverted shit that no sane person would get into.

Freedom of Submission Alliance

Compulsory Pettification

Can't believe she's into that kinda crazy shit. Well, screw you and your pervert ass!

Months later

A hybrid-style competitive pet gear

A sports pet gear that allows more "front leg" movement while still restricting the back legs and restrains the pet on all four.

The paw pads while restrictive, also consist of springy support foam that allows surprising mobility in competitive petplay sports.

Dog ear headband and pigtails are mostly for aesthetic purposes. The sexualized sport draws the audience with both the athleticism and the attractiveness of the pet-players.

Ear tag is a part of the national human pet registration that all the pet-players are required to be on. Same as the tattoos.

Bone-shaped gag is used in competitive fetching to prevent biting and only allows oral clamping and sucking on the fetching target.

Skinship between the coaching staff and the pet is highly encouraged as a part of the sport.

How are you feeling today, CC? Hungry for some red rockets?

Yes, coach! Arf!

Enhanced smell sensor for sniffing out body odor and sexual fluids.

Bell piercings for aesthetic and also helps in determining the position of the opponent.

knot-shaped naval piercings are popular among the fetching pet-players.

Tail plug is specialized for competitive fetching. It can discharge electric shock to the wearer's anal cavity by pulling on the tail as part of the defense.

Aphrodisiac ointment and other kinds are constantly applied to the pet-player to increase vaginal fluid secretion and added to the pet's motivation.

Wet and steamy down here! She's always ready to go!

For a workout today, we have a new rookie joining our team.

How about doing some one-on-one match just to see what she got?

Wruff ?

Yeah. She said in the interview that she knew you. Come on in, SourSnatch!

No way!

I finally found you, Fucking Mari!

Grrr!

I couldn't just let her get away with it. This bitch can't just go on doing her perverted shit while I still can't win against her! My heart won't let me rest until I do!

Just to get back at you, I had to quit my beloved basketball, join this disgusting sport, and get "personally, intensively" trained by the filthy, degenerate coach for weeks. All that just to be here and challenge you once more at this thing that you love so much! And I'm gonna win this time!

Training and preparation of a competitive pet-player usually consist of many hours of restrained movement training in the gear, intimate sexual training in many areas, and diet control in which the pet is only allowed to consume bodily fluids from the coaching staff and some specialized pet food.

Extra: Brittany's intensive training

Movement in bondage training.

Don't lose focus from the knot!

I spend hours every day chasing that disgusting dog dildo around the gym.

Oral sexual training

Very good, SourSnatch!

I have to move into the coach's dirty apartment and become his personal sex pet as a part of this damn personal training!

Diet control

Right! Before and during the match, you can only eat this dog food mixed with cum and drink my piss.

Urgh!

And I have to... eat and drink these disgusting stuffs. the fucking smell enhancer makes everything even worse!

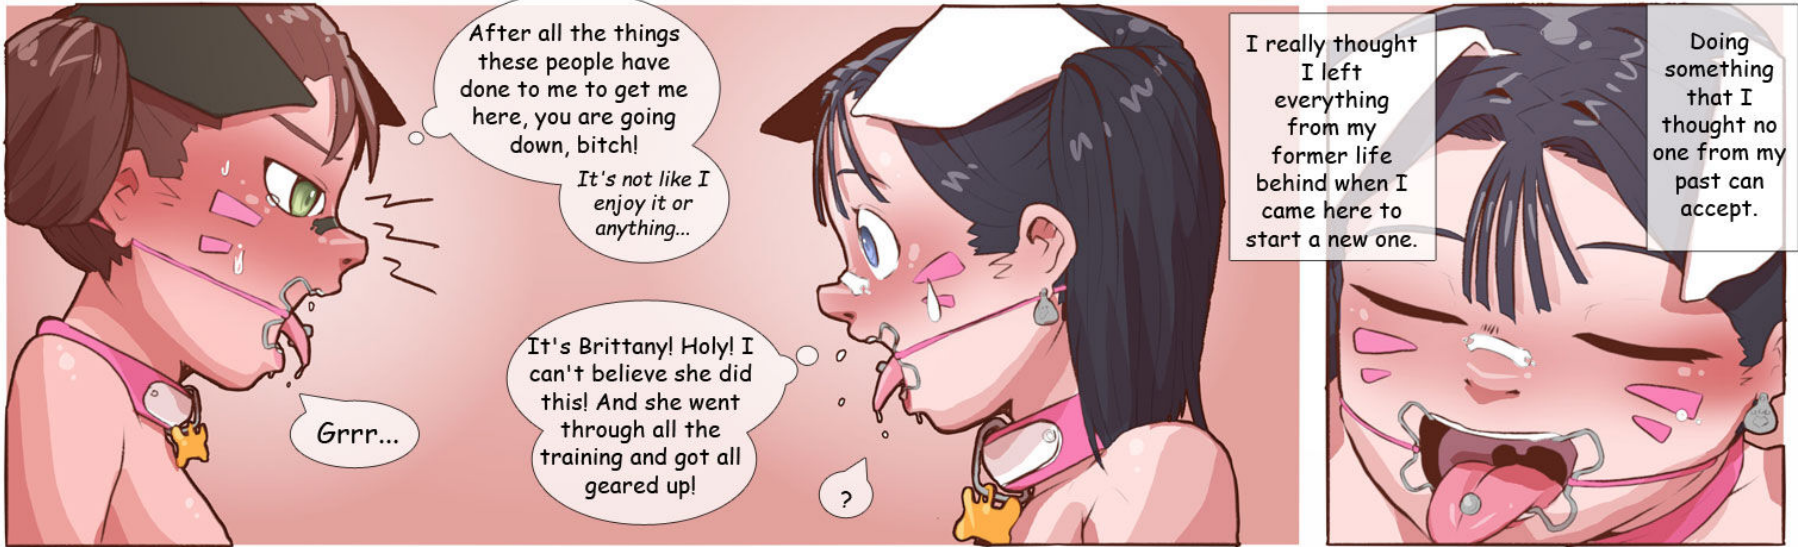

Squeeze harder!

The piercings are healing nicely, huh?

Intimate training

Sexual bond between the coaching staff and the pet-player is a big part of the sport. The pet is expected to perform well physically in the competition and also excel at sexual services. At least that's what they freaking told me while the coach fucks my brain out every day, molding me into a cock-craving slutty pet!

After all the things these people have done to me to get me here, you are going down, bitch!

It's not like I enjoy it or anything...

Grrr...

It's Brittany! Holy! I can't believe she did this! And she went through all the training and got all geared up!

?

I really thought I left everything from my former life behind when I came here to start a new one.

Doing something that I thought no one from my past can accept.

I can't believe that someone who I enjoyed battling with so much, who was a big reason keeping me from choosing this life, would come here to join me, once again.

Thank you, Brittany!

Now, bring it, rookie bitch!

Snatchy hehe

Competitive Fetching Rules

The pets are to retrieve the fetch target thrown by the referee and bring it back either orally or vaginally.

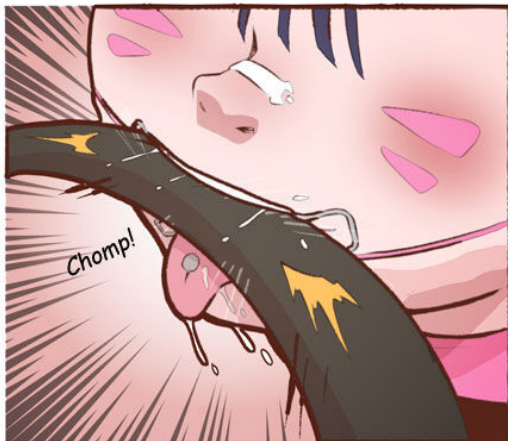

A single retrieved target that is successfully brought back to the referee count as one point.

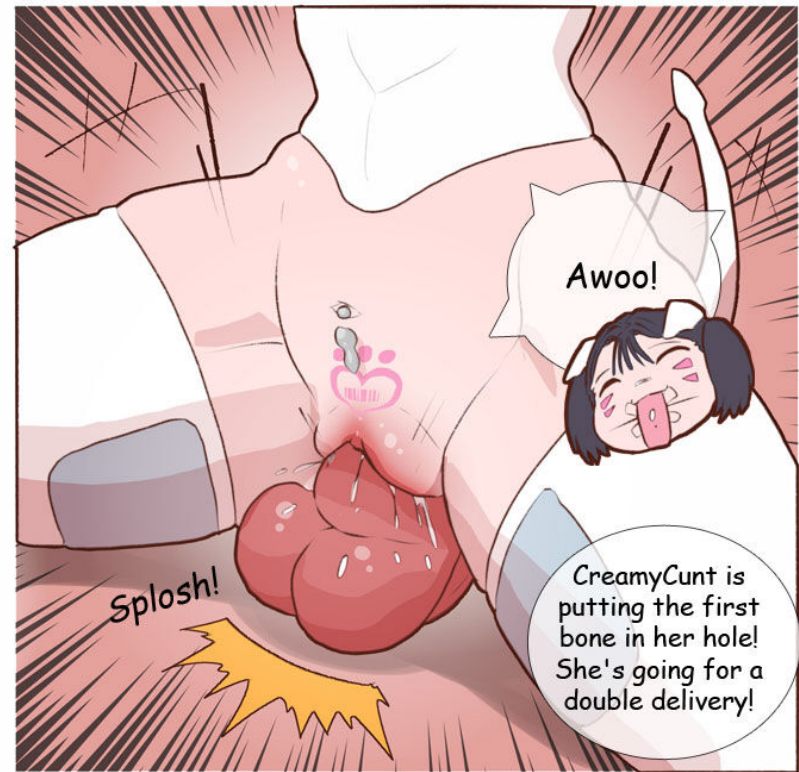

If 2 targets are brought back in the same delivery, the score is multiplied by 2 to 4 points.

The pets are also to prevent the opponent from scoring.

Tail-pulling is the main way to prevent the opponent's movement in competitive fetching. The pull-activated electric shock from the tail plug will stun the opponent. Sometimes a com-fetch match can quickly become a game of tail-chasing (Or a "dogfight").

Go
fetch!

Show me what you
got, little rookie
bitch!

CC is going
for a flying
fetch!

But I
will win!

**Extra:
Afterward**

Well, that's 12 - 0. Good try, SourSnatch! Definitely a lot of potential in you. Creamy is just way too good, but you can get there.

Now, sorry, Snatchy. But as per tradition, The winner gets to assert dominance over the loser.

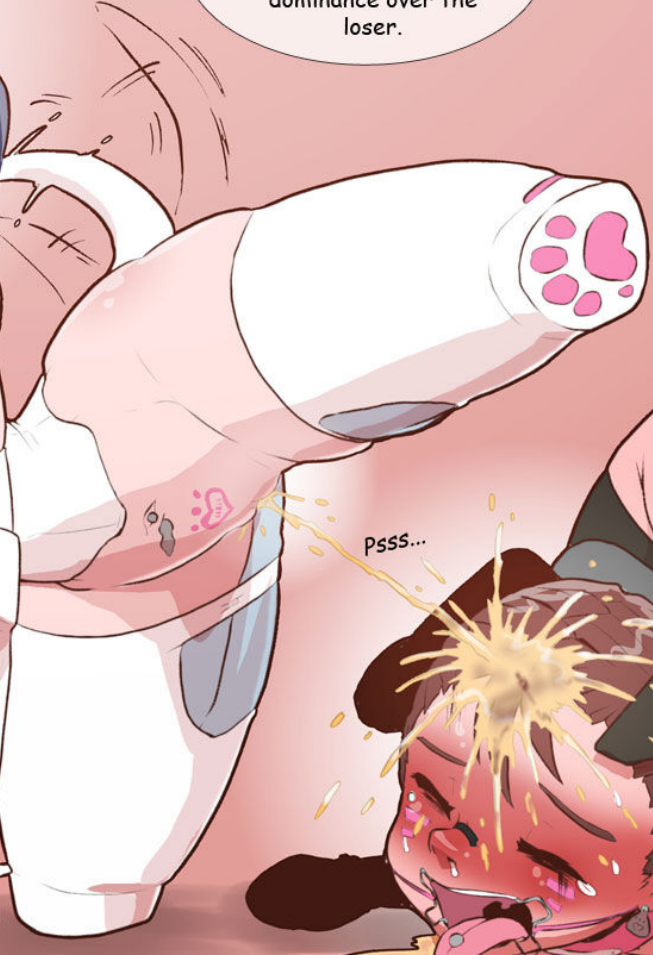

Stay still and take it, Pup!

Good girl, CC!

Wruff!
Arf!

Hehe! Still a long way to go, rookie!

psss...

Whiiiiinee!!!

Damn you, cunt!!!
