

No idea!

After they grew to a certain size,

I woke up one morning to find  
that they'd fallen off my chest

Little bit

But, I found I  
could put them back on  
easily enough

They pop off a little too easily,  
for my liking, like when I'm rolling  
around in bed without a bra on

But, that's also how I discovered  
the rest, when I accidentally got my  
foot stuck in one!

If they do, I sure  
as hell don't know it!

And believe me,  
I've been trying!

So... then they  
don't do anything else,  
do they?

So... anything you wanna show me?  
Y'know. Any special tricks you have!

A woman with long, wavy blonde hair is sitting on a bed with white pillows. She is wearing a black top and has a prosthetic right arm. She is pointing her index finger towards the camera. In the background, there is a framed picture of a woman's face on the wall. To the left, there is a wooden headboard, a vase with white calla lilies, and a white mug on a small table.

Well... they're not really tricks,  
but I have a few things I really like doing...

But I need my arm back

I dunno, I'm getting  
kinda used to this...

And... yeah...

So don't go telling  
anyone, okay?

It seems so unusual  
come back again whole

Watch, but uh...  
try not to freak out

I'll be fine, I promise!

Okay...

...nice

Boobface, literally...

gasp

Huh? What you...

Oh wow...

It's so smooth!
